

COVID-19 LED MESSAGE DISPLAYS

EFFECTIVE QUEUE MANAGEMENT TOOL

Keep customers and visitors safe during the COVID-19 pandemic with these new pre-programmed queue management LED signs.

The sign features a rugged, hard wearing case for use outdoors, and can be controlled remotely via a switch or customer counting system. When you're not in need of specific COVID-19 or queue management messages, you can customise your messages and save them as quick-access presets for use at any time, with different messages assigned to your remote control.

Key Applications

- ▶ Queue management
- ▶ Safety regulations (e.g. social distancing)
- ▶ Promotions & special offers
- ▶ Store/office opening hours

As standard, the COVID-19 Display is an outdoor 16 x 80px display, however with plenty of alternative models in stock, Messagemaker Displays can programme any stock model for COVID-19 messaging.

Key Features

- ▶ 16 x 80 pixel bi-line display
- ▶ 122 x 610mm display
- ▶ Red, green and blue LED
- ▶ Outdoor brightness of over 5,000 cd/m
- ▶ 100m viewing distance
- ▶ Pre-configured with 2 messages of your choice
- ▶ Remote switch control (supplied)
- ▶ Automatic brightness
- ▶ Built for all weather conditions
- ▶ Easily customisable with personalised messages
