

URBAN SPEED ENFORCER SIGN

BRIGHT AND EYE-CATCHING LED SPEED SIGN INCLUDING FLASHING BEACONS, ROUNDEL AND SPEED LIMIT MESSAGE

An ideal sign to enforce the upcoming change in speed limits in Wales for urban areas.

This sign is an attention-grabbing LED speed sign to alert drivers of changing speed limits. Easily post-mounted and available with a solar panel, this sign is optimised for energy efficiency, without compromising on brightness or quality.

Being fully TSRGD compliant, this speed sign can be used on public roads where applicable. Our LED technology produces minimal light pollution and low reflection for optimal viewing distance.

KEY FEATURES

- ▶ EN12966 certified, TOPAS registered and conforms to TSRGD
- ▶ 20mph Speed Enforcement
- ▶ Vehicle data capture option available
- ▶ Wireless control available to allow user to remotely access data logging and error reports, reducing the need for site maintenance visits
- ▶ Capable to set timetables on site or remotely
- ▶ Automatic / manual / schedule brightness control

TECHNICAL SPECIFICATION

Requires minimal power for efficiency, optional for solar panel and batteries

High contrast ratio, very low reflection

Long viewing distance, clearly visible at a range of at least 200 meters

Lightweight, high reliability and long lifetime

Heavy duty and weatherproof

Easy to relocate

200m Viewing Distance

Standard	EN12966 and TOPAS
Housing Size (HxWxD)	600 x 600mm
Housing Material	Black Aluminium
IP Rating	IP65
Digit Height	180mm
Roundel Diameter	480mm
Roundel Colour	Red
Amber Beacon Diameter	90mm
Viewing Distance	200m
Power Options	Battery / 230V AC or 12V DC Mains / SOLAR Power
Maintenance	Front door open
Digit Colour	White

** Weight excludes an optional solar panel*

SOLAR POWER

- ▶ An alternative to removing batteries for charging
- ▶ Increases battery life

Optional
Extra
