

MESSAGEMAKER APP

CONTROL YOUR SIGNS WIRELESSLY WITH
OUR NEW BLUETOOTH APP

KEY FEATURES

- ▶ Quickly switch messages with the touch of a button
- ▶ Save and load your favourite messages
- ▶ Change text colour and positioning
- ▶ Compatible with all LED Message Displays with a Bluetooth module.

Introducing the Messagemaker Bluetooth App, allowing you to make changes to your display and save/load messages straight from your phone.

With the app you can simply type your message on your phone and send it to your display. You can also select colours for different sections of text and choose whether you would like the text animated, scrolling or static.

Save and load messages for quick updates on the move, perfect for retail stores looking to control how many customers enter the shop, promote deals and discounts, or just display a friendly welcome message.

*Only available on Android devices
