

## LED CAR PARK SIGNS

PROVIDING  
CLEAR, EFFECTIVE  
TRAFFIC  
MANAGEMENT  
SOLUTIONS TO  
ENSURE USER  
SAFETY, IMPROVE  
VEHICLE FLOW &  
REDUCE DELAYS.

**In today's market many car park operators require effective and clear traffic management solutions to ensure user safety, the free flow of traffic and reduce congestion.**

At Messagemaker Displays, we design and make a wide range of standard and bespoke LED text and numeric displays for use in car parks or close distance traffic management applications.

Our range of car park signs spans simple LED modules, that can be incorporated in your own system through to complete encased branded displays built to your specifications.

- ▶ Standard text heights 30, 50, 100, 120, 160mm
- ▶ Full matrix text or numeric displays
- ▶ Individually addressable
- ▶ AC or DC options
- ▶ Automatic or manual brightness control
- ▶ External enclosures rated to IP65
- ▶ External LEDs compliant to EN12966
- ▶ Compliant to EN12899, TR2516, 2136, 2130B plus EN50293 and EN12966.
