

EASY-USE MULTI MESSAGE DISPLAY

EASILY UPDATE
YOUR SIGN VIA
BLUETOOTH
REMOTE, WI-FI OR
ETHERNET CABLE

Messagemaker Displays introduces two new remote switch signs, available in either full-colour or tri-colour, and controllable wirelessly through Bluetooth, remote or Wi-Fi. These LED message display signs are the perfect solution for communicating various messages at the touch of a button.

These signs are held in stock & are available for delivery within a few days. Please contact us to see what we currently have available.

- ▶ Case size: 690mm (w) x 202mm (h) x 105mm (d)
- ▶ Indoor & outdoor versions available
- ▶ Full or tri-colour available
- ▶ Controlled wirelessly via Bluetooth, remote, Messagemaker App, Wi-Fi or ethernet cable
- ▶ Can be wall mounted or hung via eyebolts
- ▶ Fits 2 lines of text

This sign can be preconfigured with up to 22 messages of your choice, giving you a wide range of options to display for various situations.

Automatic brightness control allows this display to be highly energy efficient. This will not only save you costs, but also help preserve the LEDs so that they keep performing better, for longer.

Please feel free to contact us with any enquiries.
