4 day delivery

KEY FEATURES

- ▶ Up to 22 pre-configured messages
- ▶ Energy efficient automatic brightness control
- ▶ Wireless control via Wi-fi and RF remote control; wired Ethernet and serial communication
- ▶ Suitable for indoor and outdoor use
- ▶ Full colour LED panel
- ▶ Wall and ceiling mount options
- ▶ Fit 2 lines of text

This sign can be preconfigured with up to 22 messages of your choice, giving you a wide range of options to display for various situations.

Automatic brightness control allows this display to be highly energy efficient. This will not only save you costs, but also help preserve the LEDs so that they keep performing better, for longer.

Please feel free to contact us with any enquiries.
