

# LOST TIME INJURY BOARD

RAISE AWARENESS  
AND REDUCE  
ACCIDENTS WITH  
A BIG, BOLD AND  
BRIGHT LOST TIME  
INJURY BOARD.  
DELIVER YOUR  
HEALTH AND  
SAFETY MESSAGES  
IN REAL-TIME

**Messagemaker Displays design and manufacture large format Lost Time Injury (LTI) boards for dynamic display of safety data. The boards provide live accident information to raise awareness of health and safety incident. Sharing live statistics will influence better ways of working to improve efficiency and reduce accidents in the workplace.**

- ▶ High visual impact display using LED message displays
- ▶ Indoor and outdoor models
- ▶ Supplied fully branded with company logo and colours
- ▶ Automatic real time updating
- ▶ Custom sizes, layouts and software available

As standard, the LTI boards have three LED displays incorporated which display; the number of accidents which caused lost time, those which did not lose time and the number of days since the last reported accident.

Messagemaker Displays supplies the boards fully branded to fit in with the rest of your site and company branding. The LTI boards are available in an outdoor and indoor version.

The boards are easy to program by either wired or wireless connections to enable automatic or manual updates to the statistics.

For those requiring alternative information to be displayed, such as a clock or countdown, Messagemaker Displays will not only print custom titles, but will individually program each board.

# LOST TIME INJURY (LTI) BOARD
