

HIGHWAY APPROVED VAS

BRIGHT AND EYE-CATCHING
LED SPEED SIGN INCLUDING
FLASHING BEACONS, ROUNDEL
AND SWITCHABLE SPEED LIMIT
MESSAGE

An ideal sign to enforce the changes in speed limits across the UK for urban areas.

This sign is an attention-grabbing LED speed sign to alert drivers of changing speed limits. Easily post-mounted and available with a solar panel, this sign is optimised for energy efficiency, without compromising on brightness or quality.

Being fully TSRGD compliant, this speed sign can be used on public roads where applicable. Our LED technology produces minimal light pollution and low reflection for optimal viewing distance.

KEY FEATURES

- ▶ EN12966 certified, TOPAS registered and conforms to TSRGD
- ▶ 20/30mph or 30/40mph Speed Enforcement
- ▶ Vehicle data capture option available
- ▶ Wireless control available to allow user to remotely access data logging and error reports, reducing the need for site maintenance visits
- ▶ Capable to set timetables on site or remotely
- ▶ Automatic / manual / schedule brightness control
- ▶ 4G Modem Upgrade: Allows remote access for data download, trigger speed changes and scheduling options.

TECHNICAL SPECIFICATION

Main, battery or solar powered
High contrast ratio, very low reflection
Long viewing distance, clearly visible at a range of at least 200 meters
Lightweight, high reliability and long lifetime
Heavy duty and weatherproof
Easy to relocate
200m Viewing Distance

Standard	EN12966 and TOPAS
Housing Size (HxWxD)	800 x 800mm
Housing Material	Black Aluminium
IP Rating	IP65
Digit Height	240mm
Roundel Diameter	600mm
Roundel Colour	Red
Amber Beacon Diameter	90mm
Viewing Distance	200m
Power Options	230V AC or 12V DC Mains
Maintenance	Front door open
Digit Colour	White
Optional Extras	Radar, 3G or 4G modem
