

SNAP ANPR

A COMPLETE
ANPR SYSTEM
FOR ACCESS
CONTROL, SPEED
MONITORING,
CAR PARK
COUNTING
AND GENERAL
SECURITY

VEHICLE SPEED MONITORING

With a wide range of speed reports and real-time alerts, a points based offence system can be used to track repeat offenders and automatic reports can be scheduled to be sent daily, weekly and monthly to ensure maximum efficiency.

KEY FEATURES

- ▶ Manage from any internet browser
- ▶ 95-99% accuracy at speed up to 100mph
- ▶ Unlimited database capacity
- ▶ Automatic database sync (SQL, MySQL, Access & CSV)
- ▶ In-depth reporting
- ▶ Wide range of alerts; on-screen, SMS, email and relay output
- ▶ Integration with network LED displays.

ACCESS CONTROL & CAR PARK COUNTING

Vehicles are accurately counted and identified using plate detection and loop verification allowing for registered vehicles to be detected and driver feedback to be displayed through LED parking signs.
