

FULL MATRIX

VEHICLE ACTIVATED WARNING SIGN

EYE-CATCHING, VERSATILE, FULL MATRIX LED SIGN
WITH BEACONS AND 'SLOW DOWN' MESSAGE.

Introducing one of the latest additions to the Messagemaker Displays range; the Matrix Vehicle Activated Warning Sign.

This versatile sign features a full LED display, allowing for improved visibility without the development cost of individually punched hole designs.

KEY FEATURES

- ▶ Full Matrix LED display
- ▶ 4 amber flashing beacons
- ▶ 'SLOW DOWN' LED display
- ▶ Integrated Vehicle detection radar
- ▶ Optional VAS mode when used with radar
- ▶ Automatic dimming for optimal visibility
- ▶ Adjustable trigger speeds and display-on time
- ▶ 100m Viewing distance

The full matrix LED panel is ideal for most roads, as it can be pre-loaded with many TSRGD safety symbols – including: 'Traffic Lights Ahead', 'Children Crossing' and more. It also includes four flashing beacons across the sign and a large 'SLOW DOWN' message, which is displayed in white LEDs.

Our Vehicle Activated Warning Signs are an ideal solution for your collision prevention and traffic calming needs.

KEY BENEFITS

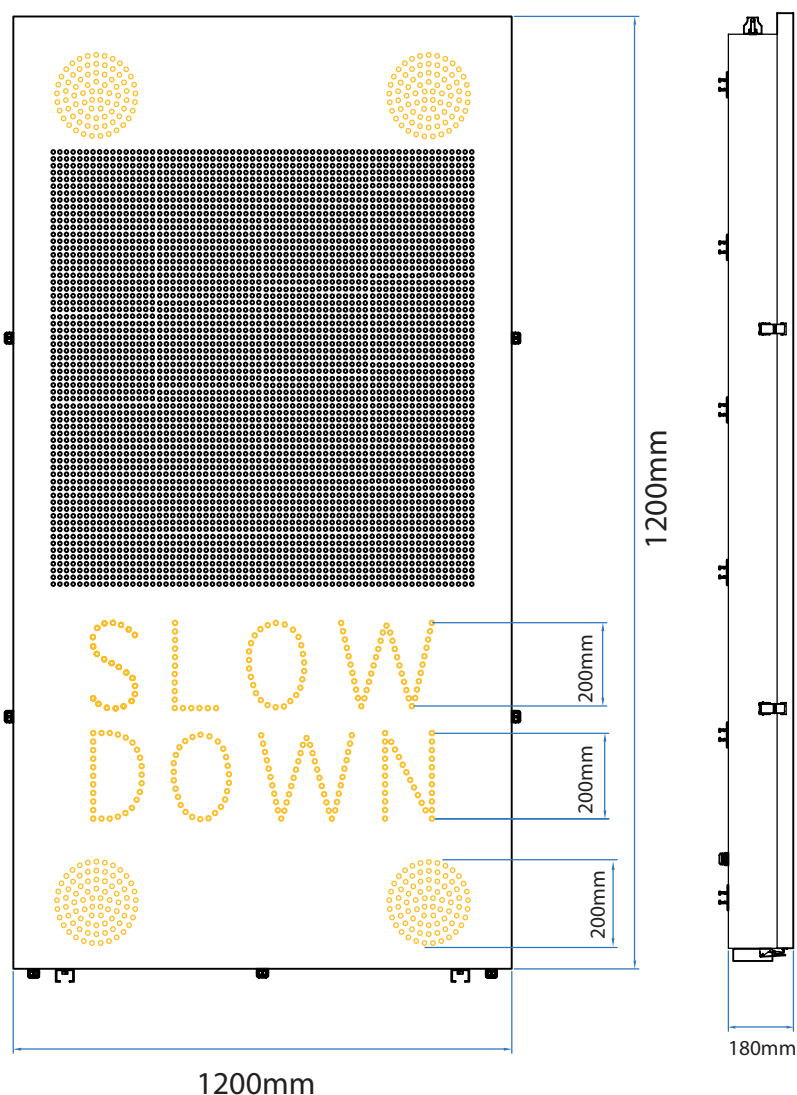

- ▶ Full colour Matrix LED display
- ▶ Load any TSRGD compliant safety symbol
- ▶ Suitable for any hazard warning application
- ▶ Suitable for most road types, including A roads and high speed settings*
- ▶ Capable of capturing traffic data

**Exceptions apply*
