EFFECTIVE, FLEXIBLE AND EYE-CATCHING SOLUTIONS FOR ANY APPLICATION IN BOTH INDOOR AND OUTDOOR SITUATIONS

Messagemaker Displays' range of indoor and outdoor LED message displays use a sophisticated system to create a simple text sign. They can be used as a stand alone sign or be integrated into third party systems.

The options available for single or tri-colour options as well as single, bi-line and multi-line layouts, these signs are versatile and easy-to-use.

Offering a wide range of capabilities, the message displays can typically be used for communicating information, time and temperature display, parking guidance and automated gate/barrier guidance.

KEY BENEFITS

▸ Show different messages every day, or at specified times by using message scheduling

▸ Keypad or PC Software control, ethernet and serial connections standard (USB option)

▸ Simple Open protocol interface and API freely available for OEM applications

▸ Can also be used as a clock, time zone display, countdown or count up event timer

▸ Use as an 'in house' instant communications tool to get messages out to staff, visitors or customers

TECHNICAL SPECIFICATIONS
